DO IT YOURSELF, OR BRING SOMEONE IN

HOME ORGANIZATION ASSESSMENT

Both are valid. The question is which one your specific situation calls for, and the honest answer usually turns on time and decisions rather than skill.

DOING IT YOURSELF WORKS WHEN

- [ ] You have consecutive time, not scattered hours
- [ ] The decisions are yours alone to make
- [ ] One or two rooms, not a whole house
- [ ] You have done it before and it held

BRING SOMEONE IN WHEN

- [ ] You have started three times and stopped three times
- [ ] The volume is beyond what a weekend can touch
- [ ] There is a deadline, a move, or an event
- [ ] The house has to keep working while it happens
- [ ] Decisions involve someone else's belongings

WHAT YOU ARE ACTUALLY BUYING

- [ ] Not tidiness, which reverts
- [ ] A structure that survives a bad week
- [ ] Someone to hold the decisions so you only make them
- [ ] Systems documented for whoever else uses the house

QUESTIONS TO ASK ANYONE YOU HIRE

- [ ] What happens after you leave
- [ ] Do you document the system, and in which languages
- [ ] Do you train the people who will maintain it
- [ ] What do you do when something stops working
