PACK SO UNPACKING IS FAST

THE PACKING GUIDE

Packing well is not about protecting things. It is about how quickly the new house becomes usable. Everything here serves the unpack.

SUPPLIES, GET THIS RIGHT FIRST

- [ ] Small boxes for heavy, large for light, never the reverse
- [ ] More small boxes than you think
- [ ] Paper over bubble wrap for dishes
- [ ] One marker per person, not one for the house

LABEL FOR THE UNPACK, NOT THE PACK

- [ ] Room it goes TO, not room it came from
- [ ] One line on what is inside
- [ ] Mark the boxes to open first with a single dot
- [ ] Number the boxes and keep a list

ROOM BY ROOM

- [ ] Kitchen takes twice as long as you plan
- [ ] Books in small boxes, always
- [ ] Clothes on hangers into bags, not folded
- [ ] Cables photographed before unplugging

DO NOT

- [ ] Do not pack anything you would replace rather than unpack
- [ ] Do not mix rooms in one box to fill a gap
- [ ] Do not seal a box you have not labeled
